Imagine this: All of your guests have arrived and are waiting excitedly in anticipation for you to enter.... A loud cheer goes up through the crowd as smoke fills the room and a large video screen appears and shows a montage of pictures of you to high-energy music and a movie theatre trailer about you and your life. A big finish a BURST of fire, and you emerge from your hiding place ready to bask in the glory that is your sweet sixteen celebration! Not only will your entrance be remembered by all for years to come, but the guest of honor will also have their copy of their entrance video to reflect fondly upon.

Post your videos on the web!
